## BOYS' BAND ASTONISHES THE CITY

Young Musicians Cheered  
Wildly by Park Full of  
People at First Concert.

### REMARKABLE WORK OF LADS

Cheered until they were forced to play almost every selection in their repertoire, Prof. Rayo Reyes' band of young musicians received an ovation Friday evening when they gave their first public concert under the auspices of The Herald.

Grouped in a semicircle under the big arch of the Cleveland square bandstand, the boys of the juvenile Mexican band could scarcely be seen by the crowd that was scattered over the lawn and along the sidewalks to hear their first concert. But when Prof. Reyes brought down the first overture, the music which floated out from the big concrete sounding board was as sweet as that of any of the professional bands which have appeared in El Paso.

All Are Small Boys.

Although the oldest member of the boys' band was scarcely 14 and the youngest not yet eight, the little musicians waded through heavy selections, intricate waltzes and played stirring marches and instrumental solos with an attack which was truly remarkable in view of their age. As soon as the spectators had recovered from their surprise at such playing by a crowd of boys no bigger than The Herald newboys, they cheered the lads until they played encore after encore to please the crowds. When the band broke into "Dixie," the cheering could be heard throughout the downtown business district and the musicians were forced to play it over a second time.

The program given by the boys' band was carefully selected by the director and included a number of the soft, native waltzes, which makes the music of Mexico so typical. The waltz numbers were particularly pleasing in this respect and the crowd would not stop cheering until encores were played.

Prof. Reyes a Capable Leader.

The success of the first concert given by the boys' band is largely due to the careful training which the young musicians have received from Prof. Reyes.

### DOCTOR HELD BECAUSE OF SUICIDE OF WIFE

Fresno, Cal., June 25.—Dr. Jackson L. Martin, who is charged with failing to provide proper medical attendance for his wife after she had made two attempts to commit suicide, was yesterday afternoon held to answer before the superior court.

Mrs. Brittain, of Marysville, sister of the late Mrs. Martin, was the chief of the witnesses for the prosecution. She told of having been summoned from Marysville by Dr. Martin, who, upon her arrival, informed her that he and her sister were unsatisfied and that he proposed to live the rest of his life care free. He stated that he had told Mrs. Martin of his intentions and then informed Mrs. Brittain of her last attempts to end her life, first by inhaling gas and later by drinking ant poison. Mrs. Brittain testified that she then asked Dr. Martin whether there was not another woman in the case and he replied that he did not recognize her right to ask that question.

Mrs. Marsh, a nurse, largely corroborated Mrs. Brittain.

Dr. Martin offered no testimony.

Ministers of the gospel, doctors of medicine, nurses and people everywhere unite in commending Duffy's Pure Malt Whiskey, a perfect tonic stimulant, the one true medicinal whiskey.

## Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a liquid food, tonic and stimulant, requiring no digestion, in the form of medicinal whiskey. Its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach. Its gentle and invigorating properties influence for good every important organ in the body. It makes the old feel young and keeps the young strong and vigorous.

CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold in SEALED BOTTLES ONLY—never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price \$1.00 a large bottle. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for doctors' advice and an illustrated medical booklet containing testimonials and rules for health, both sent free.

## Rayo R. Reyes, Director of Mexican Boys' Band

who has been drilling them for almost a year and has developed an organization which is a credit to the city. The Mexican boys are natural musicians, especially with the reed instruments, and the playing of the reed section of the band was the most pleasing part of their concert Friday evening. Praise has been heard from all parts of the city for the young musicians and a young woman from Pike's Peak, Colo., a music teacher, telephoned The Herald today and suggested that the city council should secure the boys' band for the summer concerts, as it was far superior to the band which has been rendering these concerts.

### The Band Roster.

The young musicians and the instruments they play, are given below:

## Roosevelt's Double Fools Even Faithful Rough Riders

New York, N. Y., June 25.—A joke, it develops today, was played on "Bob" Rinehart and the rest of the Rough Riders here recently. When the Rough Riders on an outing at Huckleberry Island were at an interesting stage of a clambake one of their comrades came dashing into the dining tent, and, nervously mounting a chair, announced:

"Boys, you've a pleasant surprise coming. In less than another minute our beloved colonel, Theodore Roosevelt, will join us. His yacht is just putting in at the dock and—"

The remainder of his remarks were swallowed up in a mighty cheer that fairly shook the jagged rocks of the island.

Of course there must be a speech, and they demanded it in the frank Rough Rider manner. Without hesitation he climbed upon a chair and spoke.

"Boys—my boys," he said, "by George, I am glad to be here with you. It's bully. Since I last saw you I have stood

MR. ROBERT KANE, AS COLONEL ROOSEVELT.

none, none I repeat, can compare with you boys."

It wasn't Col. Roosevelt.

Robert Kane, of No. 224 East 52d street, a member of the N. Y. A. C. and wampum keeper of the "Huckleberry Reservation," is the man who so cleverly essayed the character of Mr. Roosevelt, with such faithfulness that even his own friends were deceived.

## CONGRESS CLOSING UP WORK OF SESSION

(Continued from Page One.)

will send a message to congress before adjournment is taken tonight, saying that while he signed the rivers and harbors bill, he will never again approve a message along the same lines. He signed the bill this morning.

Texas Jubilee.

The Texas members of the house express great pleasure at the passage yesterday of the antioction futures gambling bill, saying the south has won out on the proposition. Beal, Burleson and Henry are receiving congratulations today on account of their hard work for the measure.

Pension Agreement.

The house conferees yielded on the question of a dispute over the pensions appropriations bill and the conference report was agreed to by the house. The house wanted to abolish all pension agencies but one in Washington, but the senate would not agree. All recent agencies will be retained. The pension bill carried \$156,000,000.

Imperial Valley Trouble.

It is doubtful if congress at the present session will appropriate any money for use of the reclamation service in protecting the Imperial valley of southern California from the ravages of the Colorado river. Representative Smith of California, introduced his resolution providing for the appropriation of \$2,000,000 for the purpose, but he found little support in the committee because

of the lack of information as to conditions in the locality where the river is making trouble.

The president today will send a message to congress urging the appropriation of \$1,000,000 for use by the president at his discretion to prevent this flood damage.

### Gore Wins Fight.

The action of the conference committee today on the proposal to modify the provision of the general deficiency bill, urged by senator Gore, resulted in a victory for the Oklahoma blind senator, for the committee struck out the modification and agreed to report the original provision of Gore, which provides that no contract shall be approved regarding the sale of Indian lands until further action by congress. This ties up all fees, including those of Col. Cecil Lyon, of Texas, whose name was mentioned in Gore's speech yesterday, as well as that of McMurray.

### Work of Congress.

Notwithstanding the fact that action on many important measures was delayed by conflicts between insurgents and "regular" Republican factions in both branches and that the Democratic minority was an active force, congress is expected to conclude its long session today with a record for legislation that seldom, if ever, has been equaled.

In the matter of "reform" movements for which president Taft stood sponsor, there were many instances of success. Chief in the list of legislation for which the administration contended were the following:

Striking revision of the railroad laws, including the creation of a commerce court.

Admitting Arizona and New Mexico as separate states.

Authorizing the establishment of postal savings banks.

Giving to the president unlimited authority to withdraw public lands for conservation purposes.

Providing for publicity of campaign contributions.

Authorizing the issue of \$20,000,000 in certificates of indebtedness to complete reclamation projects.

Creating a bureau of mines.

Extending the activities of the tariff board and appropriating \$250,000 for its use.

Looking to the suppression of the "white slave" trade.

Creating a commission to consider economies in the administration of the federal government.

Authorizing the entry of surface of coal lands.

Providing a tariff system for the Philippines.

Legislation that ultimately is expected to give prohibition to the Hawaiian Islands.

Measures That Failed.

Opposed to the foregoing formidable list of legislation obtained was a comparatively small number of measures that had been given administration support, but failed of passage. They were measures on the subjects of ship subsidy, antinjunction, for new forms of government in Alaska, and on the Panama canal zone, a bureau of health, increased postage rates for second class mail matter, the Appalachian forest reserve, and to increase the engineering corps of the army.

Not the least conspicuous acts of congress were the strenuous measures taken up by the house of representatives to reform its system of conducting business so that less power might be reposed in the speaker and the organization of which he was the natural
